## Texture Tools-Care and Maintenance

Artcrete's Texture Tools are made of the finest materials available and with the proper care and maintenance should last a long time.

### Texture Rollers - After use

Remove all excess liquid or powdered release agents with a soft brush and warm soapy water. Let air dry.

Do not drop.

Do not lay pointed or sharp objects against Texture Sleeve.

Remove from frame when not in use. Store in the shipping box, on end and away from direct sunlight or excessive heat/cold.

Occasionally apply **Armor All** or a similar product to a clean dry sleeve.

### Texture Mats - After use

Remove all excess liquid or powdered release agents with a soft brush and warm soapy water. Let air dry.

Do not lay pointed or sharp objects against Texture Mats.

Store in shipping box and flat, away from direct sunlight or excessive heat/cold.

Occasionally apply **Armor All** or a similar product to a clean dry mat.

### *Caution:*

The use of other solvents and release agents other than Artcrete's may cause the Texture Tools to wear prematurely or become brittle.
